Internal DOORS

We offer interior and exterior doors made of pine, mahogany, ash and oak.

The use of high quality glued wood guarantees aesthetic qualities and the best thermal insulation properties.

The good thickness, “Bode” locks, “Domino” and “Linea Cali” handles, and “Otlav” furniture, which provide three-level adjustment, are an integral part of the product, guaranteeing durability, resistance to everyday wear and reliability.

The unique style provides our products with decorative elements in the form of intarsia and relief and glazing using translucent glass, matt and various types of stained glass.

Depending on individual needs, the door is impregnated and painted in any color according to the RAL palette or transparent ICA lacquers.
